

Mentoring Consciousness

"Shine your light, even more brightly..."

with Pete Smith

In a career spanning many years in the consciousness industry, I've had the opportunity to meet people and teach students all around the world. I've had the chance to meet and work with some of the great pioneers in the field of consciousness evolution. A shift in the consciousness of humanity is evident everywhere, including a vast number of alternative health modalities, expanded states of awareness research and an appetite for something different, the likes of which we have not seen before.

"Lightworkers" can be found everywhere. As practitioners in practice, authors and speakers, creators of new modalities, experts in established ones and leaders in the field of human consciousness. Over the years I have filled all of these roles and now its time to help others shine their light and develop their purpose more fully in a time when humanity needs them most.

I offer mentoring to those who have come through the fields of work I have created or taught across my career. I now turn my attention to those who come after me to take the work into new realms of possibility.

We meet one on one, 2 or 3 times a year to develop ideas, help you create your own approaches, develop your own teaching style and methodologies, or simply enhance your consciousness practice. I promise to challenge you and nurture you. I will offer you the insights that create deeper self awareness, help you to work through the issues that you face and help you move to the next level of your purpose to humanity. By helping you to enhance your purpose for this lifetime I am undertaking my own. That more than anything makes my soul sing.

Sessions are charged at A\$90/hour (Approx US\$70), for 2018 bookings.

In Australia, the sessions count towards supervision hours in the Hypnotherapy Industry.
